SET-3

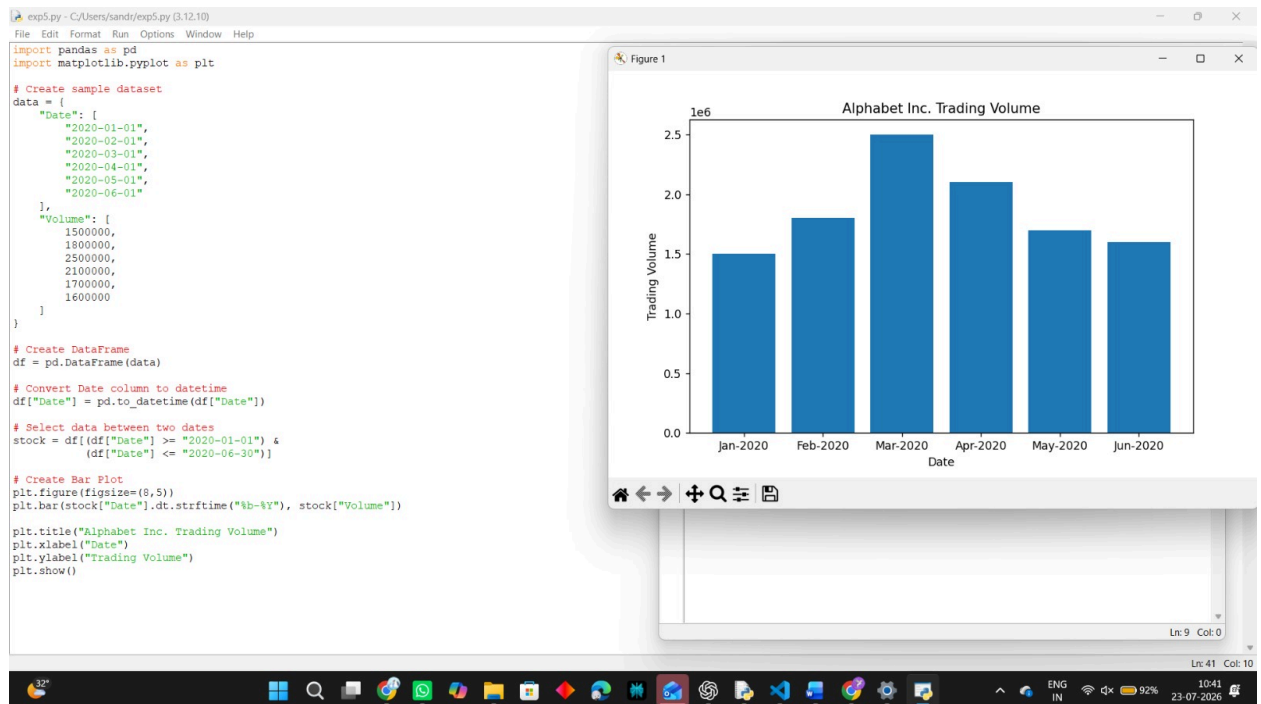

5. Write a Pandas program to create a bar plot of the trading volume of Alphabet Inc. stock between two specific dates.

Aim:

To create a bar plot of the trading volume of Alphabet Inc. stock between two specific dates.

Procedure:

1. Import Pandas and Matplotlib libraries.
2. Create or read the stock dataset.
3. Convert the Date column into datetime format.
4. Filter the data for the required dates.
5. Plot the Trading Volume using a bar chart.
6. Display the graph.

Result:

The trading volume of Alphabet Inc. stock was displayed successfully as a bar plot.

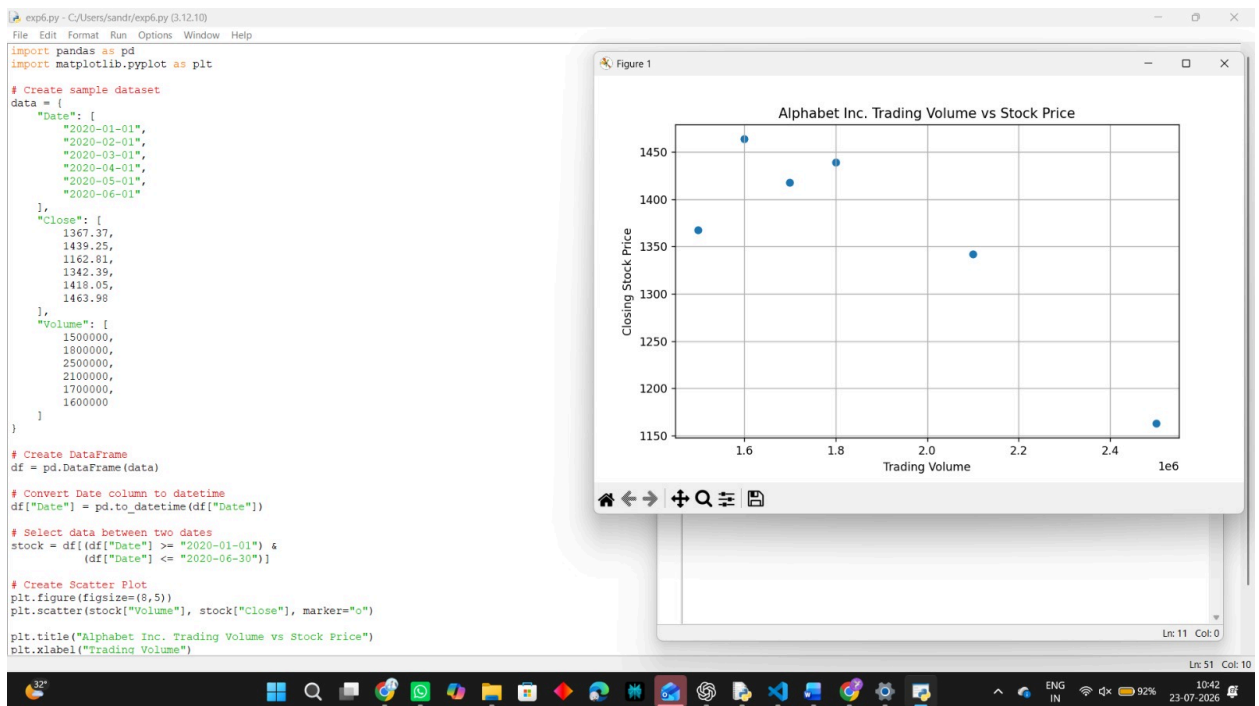

6. Write a Pandas program to create a scatter plot of the trading volume/stock prices of Alphabet Inc. stock between two specific dates.

Aim:

To create a scatter plot showing the relationship between trading volume and stock prices of Alphabet Inc.

Procedure:

1. Import Pandas and Matplotlib libraries.
2. Create or read the stock dataset.
3. Convert the Date column into datetime format.
4. Filter the data between the specified dates.
5. Plot Trading Volume on the X-axis and Closing Price on the Y-axis using `scatter()`.
6. Display the graph.

Result:

The relationship between trading volume and stock prices was displayed successfully using a scatter plot.
